

48 & 96 REAGENT CUSTOM SCREEN

Over the years Molecular Dimensions have gained extensive experience of producing custom crystallization screens for its many customers. (Some of these screens have since gone on to become some of our best-selling crystallization screens, (e.g. Morpheus®, Clear Strategy & MemGold™)).

We can now provide custom crystallization screens & solutions designed by you. Simply provide the specifications; molarity, pH etc. and we'll do the rest; from small-scale (mL) to large-scale (L).

All solutions are manufactured to our exacting standards using ultra-pure 18 MegaOhm water. All custom reagents & screens are treated as strictly confidential and are provided with full traceability.

**CONTACT MOLECULAR DIMENSIONS
FOR YOUR TAILORED CUSTOM
SCREEN QUOTATION**

“ I have been ordering custom screens from Molecular Dimensions since I started my crystallography project 3 years ago. Very quick and convenient !!! ”

MRC Prion Unit, London, UK.

ORDER INFORMATION

Description	Code
48 reagent Custom screen Set-up + 1 kit (10 mL or HT96)	MD1-CUSTOM48
48 reagent custom screen 10 mL kit (1 box)	MD1-CUSTOM48-10ML
48 reagent custom screen HT-96 kit	MD1-CUSTOM48-HT96
96 reagent Custom screen Set-up + 1 kit (10 mL or HT96)	MD1-CUSTOM96
96 condition custom screen 10 mL kit (2 box kit)	MD1-CUSTOM96-10ML
96 condition custom screen HT-96 kit	MD1-CUSTOM96-HT96
